Arvada Trails Day

Bill Orchard

There were 60 bicycle riders who defied the spectacular weather to enjoy the 11th Annual Arvada Trails Day Bike Ride. The ride was sponsored by the Denver Bicycle Touring Club as part of the Trails Day event. The riders departed the Majestic View Park north parking lot at 9:00 a.m. and headed south on Carr St, west on Ridge Road and Van Bibber Creek Trail to Church Ranch. They took the new Blunn Trail north to connect with the Ralston Creek Trail at West Woods. The group enjoyed a snack stop and group picture. (yellow hard hats were distributed to the riders to remind them of the construction improvements that Arvada is making to many trails, parks and playgrounds along the route) They returned back on the Ralston Creek Trail and after 20 grueling miles they arrived just in time to enjoy the free lunch and all the other special activities at the event.

Safety First

Scott Houchin

I was a medic on one of those multi-day bike tours again this year and, unfortunately, we had a very sad situation. While staying in the gym in Leadville, a rider died from what looked like HAPE or High Altitude Pulmonary Edema. We found him in the early morning hours and did CPR but he did not make it.

I usually associate HAPE with mountain climbing in the Himalayas or Peru. It is not an illness I expected to see on a bike ride in Colorado. The fact that it happened in Leadville, a town I often visit on DBTC trips, was an eye-opener. For the record, he was from Colorado; younger than me; and it happened at an altitude below the Leadville Hostel, a place many of us routinely stay. HAPE is a deadly illness directly due to altitude. I am bringing this to everyone's attention because accidents happen.

Although HAPE is a killer, it is also VERY treatable. It is basically Acute Mountain Sickness (AMS) going to the next level. The illness usually builds over a couple of days of sleeping at high altitude and most deaths from HAPE occur during sleep or shortly after waking. The most obvious treatment of HAPE is to go to a lower altitude. Other treatments are oxygen and first aid to AMS. The person mentioned above did NOT seek medical help. If he had gone to the AID tent, we could have treated him, but if you don't COME FORWARD WITH THE SYMPTOMS there is nothing we can do.

Always let the trip leader know if you are not feeling well. Also, do NOT assume you are going to just get better. Trip leaders: take your bikers/hikers/skiers' medical issues seriously and DO NOT be afraid to call 911. Assume the worst and hope for the best. Most conditions can be treated but the first step is to find out if the person is sick. If you don't feel well, do not be embarrassed to tell the leader or other riders.

The reality is if a person admits he is in trouble, there is probably a reason the person does not feel well. Do NOT let them continue to exercise and get them to modern medicine! REMEMBER, this is a bike ride, not a law suit! Have fun and take it easy. If you are feeling bad – your body is trying to tell you something – so, LISTEN TO YOUR BODY and take it easy – stop exercising for the day and call your doctor.

Modern medicine is amazing but YOU HAVE TO GET TO THE MODERN MEDICINE in order for the system to work. So, please take it easy out there, have fun, and don't be afraid to let others know if you are not feeling well.

Scott Houchin is a longtime DBTC member, an EMT, and a medic on bicycle rides all over the country. He is also a CPR/AED/1st Aid Instructor for the Red Cross and the American Heart Association.

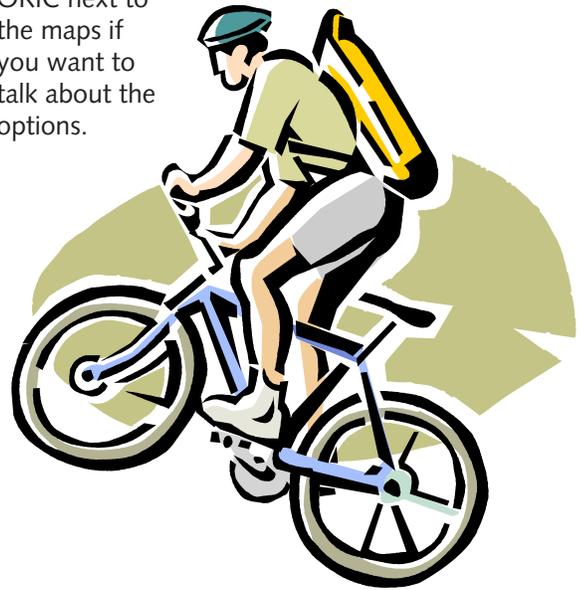

PLAN AHEAD

Cortez Mountain Biking Trip September 22nd to 30th

You can choose any of the 40 rides available from as short as 5.5 miles to as long as 29 miles or combine two or more rides. They range from easy to difficult with elevation changes from as little as 330 feet to as challenging as 5200 feet – there is something for everyone. Maps rate every trail as to difficulty and endurance required.

I will be camping at a campground, but there are several hotels in the area if you prefer. The world is at your wheels. The final ride selection for the group will be made when we know the riding level of those coming. There may be more than one option some days.

Contact Richard Quick quick71@msn.com or 303-466-4008. I'm at the REI flagship store from open to close every Thursday volunteering at the ORIC next to the maps if you want to talk about the options.

DBTC SUMMER 2012

Summer has arrived. We have a variety of rides throughout the city and MTB rides in the hills. Two camping trips and the summer picnic are planned so be sure to read through the schedule so you get them on your calendar. Contact your ride coordinator about getting your rides on the schedule for this summer. We are always looking for something new and different. The coordinators will be glad to help you with the details. Rides are cancelled if the temperature is below 40 degrees at start time, or it is raining or snowing.

Ride Locator: There is a guide to the most frequent start locations on our website, www.dbtc.org. It provides the information you need to use Map Quest to make a map to the starting location.

If you'd like to include an activity in the newsletter, please email it to ridecoordinator@dbtc.org by the 10th for the following newsletter or contact **Patty** at **303-989-8268**.

- The DBTC Website operates independently from the Yahoo Groups. The Yahoo Groups send only e-mail messages concerning some upcoming events. The DBTC monthly Newsletter, The Colorado Bicyclist, is sent to you from the DBTC Website via e-mail only if you have so requested.

Be Ready To Ride: DBTC Ride Leaders and members are NOT bike mechanics. Before showing up for a ride, check your tubes and tires. Fix flats in advance of start time. Check your brakes and shifters, and, if any part of your bike needs maintenance, take it to an authorized mechanic. A complete tune up once a year is recommended. Your ride is only as safe and enjoyable as the condition of your bike.

Yahoo Group - Posting Requirements For Rides & Events

During the winter most of our events are Show and Go. We always prefer to have rides with designated leaders so you can post a Yahoo Group ride even if a Show and Go is listed in the newsletter.

1) Description Checked:

- DBTC Moderators (currently Lin Hark, Dale Trone, and Jeff Baysinger) post rides or events only if the requester is a current DBTC member,
- AND for rides the posted description conforms to the standard DBTC posting format: (e.g., FUN-2-25-NW-10:00 AM Location, Contact person & info, brief description)

2) Rules For Posting Rides To Yahoo Group:

- To prevent drawing participants from scheduled rides, your Yahoo-posted ride must NOT be of a similar length, category, location (city quadrant), and length as a ride posted in the Newsletter.
- It must be posted at least 2 days prior to the event.

3) Ride Credit For Ride Posted Only To The Yahoo Group:

- Ride leader must send the completed sign-in sheet (snail-mail or eMail) to the Yahoo Event Compiler (currently Steve Ingraham singraham046@aol.com) within one week of the ride.
- No actual ride, no credit. No sign-in sheet, no credit. If only the ride leader signs in, no credit. If the ride leader does not sign in, no credit.

4) Credit For Other Recreational Events (Ski Trips And Hikes) Not In Newsletter:

- The event leader must send the completed sign-in sheet (snail-mail or eMail) to the Yahoo Event Compiler (currently Steve Ingraham singraham046@aol.com) within one week of the event.

New Format for ROAD AND INT RIDES

Patty Gaspar

You will notice that every Saturday there is a ride listed: **ROAD/INT/FUN H2-20-SW 9:00 AM SHOW & GO** and on Sunday: **ROAD/INT/FUN H2-28-NW 10:00 AM SHOW & GO**. They have different times and start locations. These rides will be show and go and riders are advised to download map #55 for Saturday or map #54 for Sunday from the website before going. They will be primarily for the ROAD riders and INT riders wanting a challenge. FUN riders are welcome, but the pace will be fast and no one will wait for you to catch-up.

In addition to these rides, Donald Schmertz will continue to lead his rides from various locations. His rides involve use of a paceline and he tends to do a lot of climbing in the foothills. All rides will regroup as necessary. Some of them will be in the newsletter and some will be posted on the Yahoo group and MeetUp group. Contact me at ridecoordinator@dbtc.org

if you would like to add a ROAD ride to the schedule.

INT ride leaders who want to lead a less aggressive ride should contact Rick Clauder (funridenorth@dbtc.org) by the 20th of the month prior (i.e. 20th of June for the July issue) to get your rides in the newsletter.

We will continue to have FUN SOUTH and NORTH rides. Many of our riders prefer to ride at the 10 to 12 mile an hour pace on the bike trails and less traveled streets. And, they like to know that lunch will follow. However, we need ride leaders. Without leaders, you'll be left in the dust by the road riders. funridenorth@dbtc.org and funridesouth@dbtc.org are the contacts. The ride can be as simple or as complex as you want.

Wednesday Time Trials July 4, 11 and 18

INT/FUN-H2-10-SW 8:30 Waterton Canyon has reopened and *Bill Stevens* (303-783-0125 oboistbill@yahoo.com) wants you to join him for time TRIAL up the Waterton Trail. I was a part of one of these Summer time trials back in 1980 when I was 20. I would like to have the trials 3 Wednesdays this summer. We will have an official scorekeeper and you will know if your time improves over the summer. We will meet in the parking lot at 8:30 and the riders will leave in 5 minute intervals. After the time trial riders will group at the top or ride back down to cheer on other riders... cow bells etc etc. Fun STUFF I Hope! Strontia Springs dam will be the turn around and the Highline Canal diversion tunnel will be the finish. This is a dirt road so MTB or ATB bikes are recommended, but you can use a road bike. This would be a fun family event, or for the more serious riders, a chance to compete against other club members.

If you just want to ride for FUN the Time TRIAL is FREE. Pre-registration packet with map and Time Trial Rules" will be sent and accepted through email at oboistbill@yahoo.com. A nominal fee of \$5 will be charged to be included in the Prizes for pre-registered cyclists. Reservations are not taken at this campground which has water and a restroom, so arriving Friday will likely ensure a camping spot. There are other camping spots in the area also. This day, you will be riding the Brookside-McCurdy trail, a very primitive portion of the Colorado Trail which is just outside the Lost Creek Wilderness area. You will not see any other mountain bikers and probably no hikers or equestrians. This will be a memorable experience for Colorado mountain bikers. Getting to the campground at the end of the road is about a 2 hour drive. On US 285, descend from Kenosha Pass into South Park. Turn left on Lost Creek Road (Park Co. 56), about one mile before the town of Jefferson. There is no left turn lane, so watch for it closely. Drive 21 miles on the gravel road to the campground where the road ends. A tougher drive than normal, but you'll regret it if you don't do it. You'll remember this for the rest of your life.

MTB Day Ride P2, T2, 10:30AM, Colorado Trail, Longs Gulch to Lost Park Campground. This ride is for both campers and riders driving up from Denver. When you ride east on the CT from Kenosha Pass, you dead-end at the Lost Creek Wilderness Area. After the CT winds through the wilderness area, it comes out at Longs Gulch and is open to mountain bikers. The drive to the trailhead is 1.5 hours, but it's well worth it. This trail is unique — no crowds, a long and fast descent along the edge of a long meadow and a smooth and narrow trail. When we rode it on a scouting mission, the cattle bolted because they had never seen a mountain biker before! The miles might seem high (16 for intermediates, 20 for the gung ho), but the smooth trail makes the ride pleasurable. On US 285, descend from Kenosha Pass into South Park. Turn left on Lost Creek Road (Park Co. 56), about one mile before the town of Jefferson. There is no left turn lane, so watch for it closely. Drive 10.7 miles on the gravel road to Forest Road 817 (which is marked), turn left and go a few hundred feet to the trailhead parking lot. Car-pool from the Fort Restaurant on Hwy 8 just north of Hwy 285 at 8:45 AM. Call *Dick Plastino* (303-988-5359) with questions on this day ride.

Drive 10.7 miles on the gravel road to Forest Road 817 (which is marked). From Forest Road 817 continue toward Lost Park Campground on County Rd. 56 roughly 5 +/- miles until you come to a cattle grate. Park there and ride down a meadow toward the creek. You will see the trail sign on the other side of the creek. Cross the creek and ride a few miles up Monkey Creek to High Meadow and turn around. From the Lost Park campground, drive roughly 3.5 +/- miles to the cattle grate. For those with a GPS, go to UTM Zone 13, NAD 1927, 452,200E, 4,350,900N.
